THERAPY

2021

VIENNA & ONLINE

1-3 DECEMBER 2021

About FLASH Radiotherapy

FLASH Radiotherapy is a rapidly developing area that has the potential to provide a step change in the way we deliver radiotherapy. It induces a phenomenon known as the FLASH effect, whereby the ultra-high dose rate radiation reduces the normal tissue toxicities commonly associated with conventional radiotherapy, while still maintaining local tumour control.

FRPT 2021 will be the first multidisciplinary forum to discuss the latest research on FLASH and particle therapy.

The FRPT Conference

FRPT 2021 looks to build a worldwide organization of professionals interested in FLASH Radiotherapy and Particle Therapy. The Conference will gather researchers and students with clinical oncology professionals, and provide a multidisciplinary forum for the latest developments in FLASH RT. FRPT 2021 goes from basic science, through preclinical research and combines these with translational applications and clinical trials and treatment.

The ultimate goal of the Conference is to harness the potential for FLASH RT in a rigorous scientific and quality assured environment, and to act as a forum for the very latest advancements in this rapidly developing field.

Key dates for your calendar:

12 MAY 2021: ABSTRACT SUBMISSION DEADLINE

21 JULY 2021: EARLY REGISTRATION DEADLINE

Follow @FlashRPT on Twitter and join the #FRPT2021 conversation live.

5 REASONS TO BE PART OF FRPT 2021:

A Revolutionary Topic

Join the pioneers in a rapidly developing area that has the potential to change the way in which we deliver radiotherapy.

Latest Trends

Immerse yourself in the rapid advances in technology and research that are influencing today's practices and treatment options.

Career Opportunities

Extend your network and benefit from face to face meetings with colleagues who are looking to grow collaborations worldwide.

High Profile Speakers

FRPT will bring together the best internationally renowned leaders and experts in Flash Radiotherapy and Particle Therapy.

Global Community

Take a break from everyday life, hear the news and join discussions. Be part of a community of professionals who share your interests.

ORGANIZING COMMITTEE

Marie Dutreix
Institut Curie, France,
Organizer of the
1st FLASH Workshop

Karen Kirkby
University of Manchester
and The Christie, UK,
Coordinator of INSPIRE

Andreas Schüller
PTB, Germany,
Coordinator of
UHDpulse

Marie-Catherine Vozenin
CHUV, Switzerland,
Organizer of the
2nd FLASH Workshop
